

12" CompRT 1 Ohm

The CompRT 12-Inch Subwoofer is an all-weather slim sub with a 1Ω dual voice coil design.

A thick magnet structure reliably delivers huge power handling without effecting mounting depth. The specially designed UniPlate™ back plate and solid pole piece serve as a single heat-absorbing unit to provide excellent thermal management.

The CompRT 12-Inch Subwoofer works best with a sealed or ported enclosure and 500 watts of recommended power. See below for more details.
