

## CS Series CSC5

The CS 5-1/4-Inch Coaxial Speakers are an excellent upgrade from factory speakers.

These coaxial speakers are a significant upgrade in your sound. A stamped steel framework supports a rigid polypropylene cone with EVC™ (Extended Voice Coil) technology, for the best sonic quality. Using zero protrusion PEI tweeters ensures you get every bit of clarity you need, without interfering with factory grilles.

These CS speakers work best with 75 watts of recommended power. See below for more details.
