

GO THE DISTANCE

iDatastart RF remotes are available in a wide range of styles featuring operating ranges from 3000 feet up to 1-mile and optional 2-way command confirmation. iDatastart systems can also enable limited-range "3 X LOCK" remote start from most factory key fob remotes and are compatible with most smartphone control systems sold separately.

"iDATA" INSIDE

While traditional remote start systems rely on third-party interface modules, iDatastart systems feature built-in proprietary vehicle data bus and immobilizer interface technology to ensure that no additional accessories or costly keys are required for installation on most vehicles from 1988 to date.

CLICK IT, DON'T CLIP IT

iDatastart offers a wide range of "T" Harnesses available for select makes, providing seamless integration in most vehicles, without splicing or soldering wires.
