- 6.8" WVGA Monitor
- Apple CarPlay™ & Android Auto™ Ready
- High-Resolution Audio Ready
- Customizable Multi Widget Screen
- Garmin 3D Terrain View
- 3 Camera Inputs
- Built-in Bluetooth and HD Radio

GUIDANCE BY GARMIN

Equipped with the industry leading Garmin navigation software, offering a variety of display options to make your driving easier such as Lane Assist.

Garmin 3D Terrain View

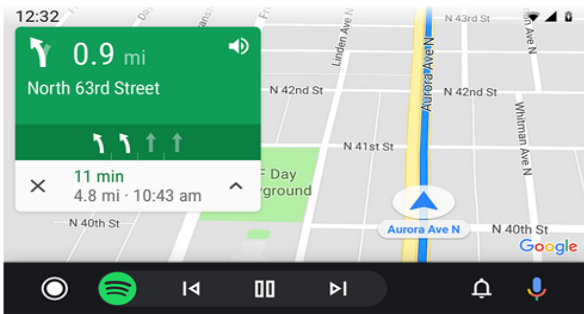

With the Garmin 3D Terrain View, life-like map contours will be displayed at low zoom levels, giving you a realistic perspective of the terrain in available areas. Previously, users were limited to simply displaying the elevation and grade levels as text on a flat map. Now, true perspectives can be achieved in a 3D format! The mapping view will reflect the curves in real time.

Safe, Smart and Comprehensive Control with Apple CarPlay

Apple CarPlay is a safer way to use your iPhone in the car. Simply talk to Siri or touch the receiver's display to get directions from Apple Maps, make phone calls, listen to voicemail, send and receive texts, and listen to music, all in a way that allows you to stay focused on the road. With the latest iOS version (iOS 12.0 and higher), 3rd party navigation apps like Google Maps™ and Waze™ are also supported.

Some features, applications, and services are not available in all areas. For details, see: <https://www.apple.com/ios/feature-availability/#applecarplay-applecarplay>

Android Auto for Easy Connectivity

Android Auto was designed with safety in mind, helping you to minimize distractions and stay focused on the road. KENWOOD's multimedia receivers combine Android Auto's intuitive voice controlled interface, a large touch screen and superior sound quality, making it the perfect complement for your in-car life.

Some Features, applications, and services are not available in all areas. For details, see: <https://www.android.com/auto>

Clear Resistive Touch Panel

A clear screen designed to reduce glare that includes a resistive touch sensor for accurate control during operation

Photo Real Junction View

Garmin Photo Real Junction View shows what complex interchanges look like before you arrive.

Lane Assist

Lane Assist guides you to the correct lane for an approaching turn or exit, making unfamiliar intersections and exits easy to navigate.

3D Terrain View

Garmin navigation feature that displays 3D map contours, providing realistic terrain perspectives.

Customizable Multi Widget

Customize your Home Screen by selecting four shortcut/information widgets. Widget options can include album art, clock, compass, photo frame, visualizer, weather, turn-by-turn, Garmin navigation, and more.

Music Mix

Up to 5 Bluetooth® devices can be paired to the receiver at the same time. You can enjoy audio streaming just by switching the devices with your friends or family.

Dual Phone Connection

While you are connected through Bluetooth, with a touch of a button you can switch between two phones.

Remote App

A smartphone application can control most basic functions of the receiver over the Bluetooth connection of the paired phone (iPhone or Android).

High Quality Sound Parts

High quality sound parts (custom-made or carefully selected capacitor, gold plated preout, etc) are adopted to provide superior sound quality.

Graphic EQ / Digital Time Alignment

13-Band equalizer and DTA gives optimal tuning enhancements for listeners.

FLAC Supported

Compatible with various audio file formats from high-res FLAC and WAV, to MP3, WMA and AAC.

Dash Cam Ready

Dash Camera (DRV-N520) can be controlled and viewed from the touchscreen.

3 Camera Inputs

Optional camera connection method for up to 3 cameras in various configurations.

Parking Guide Lines

Parking guide lines (requires installation of compatible backup camera) that enhance the effectiveness of a backup camera.
