

10" CompRT 1 Ohm

The CompRT 10-Inch Subwoofer is an all-weather thin mount subwoofer with dual 1Ω voice coils.

It takes serious know-how for a thin subwoofer to deliver super-deep bass. With our custom SoloKon™ technology and the CompRT's unique framework, the sub sounds fat - but keeps it thin!

The CompRT 10-Inch Subwoofer works best with a sealed or ported enclosure and 400 watts of recommended power. See below for more details.

Specifications

SIZE [in, cm]:

10, 25

MOUNTING DIAMETER [in, cm]:

9-1/8, 23.1

IMPEDANCE [Ohms]:

1 DVC
