

## Memphis MXASB35 – 35in

Memphis Xtreme Soundbars are the best performance powersports soundbar on the market. We utilized passive radiator technology to maximize the bass response of the soundbar for rich full sound on the trails. Each bar consists of 2 tweeter and 8 midranges housed in a self powered plug and play soundbar. Simply bolt on, hook up the power and ground wires and hit the trails. Controlling the MXASB235 sound bar is simple courtesy of the onboard Bluetooth system allowing you to tuck your phone or device away safely and control your music on wet and muddy rides. Our soundbars are equipped with 2-channel outputs allowing you to expand your system with additional audio components. Pair the MXASB35 with an Xtreme Nanoboxx Bass System for the ultimate off road audio combo. Our reinforced clamp fits any bar between 1.25"-2.5" and is trail tested to handle the most extreme conditions.

- Passive radiators for enhanced mid bass
- 10 Speaker soundbar system
- Water and element resistant
- Self powered plug & play solutions
- Aux input
- 2-channel output
