

Memphis PRXS110E – 10in

Power Reference Loaded Slim Enclosures bring you the power and reliability of the Power Reference line any space. These slim enclosures feature a thin profile making them a perfect fit for limited space applications. PRXS110E enclosures feature a ported design for maximum output and are loaded with a powerful 10" Power Reference slim subwoofer. If you need a simple solution for a limited space environment like under a truck bench or in a small trunk, the PRXS110E provides the perfect solution.

- 100% MDF enclosure
- Shallow box for versatile fit
- Ported for maximum performance
- Injected poly dust cap and cone with PR family appearance
- Heavy duty stamped basket
- Rubber surround
- Improved sensitivity and low end response over previous slim subwoofer offerings
- 45oz magnet
- DVVC Direct Vent Voice Coil Cooling
