

Memphis PRXS112SP – 12in Amplified

PRXS112SP Slim Bass Packages provide an amazing all in one solution for vehicles where space is limited. These powered enclosures are loaded with a Power Reference Slim 12" subwoofer capable of handling 350 watts of power. The integrated amplifier pushes plenty of power allowing this bass system to crank out serious bass in a limited space. Upgrading your sound under a truck seat or inside a small trunk has never been easier than with the PRXS112SP powered bass system.
