

Memphis SRX10SP – 10in Amplified

SRX10SP bass systems are designed with simplicity and performance in mind. These bass systems feature a subwoofer and enclosure with a built-in amplifier. The sealed enclosure design was built to the exact parameters for the included 10" Street Reference subwoofer which maximizes the bass output and performance of the system. Don't believe a single 10" subwoofer can give you the extra lows you're looking for you? You'll just have to experience the power of the SRX10SP bass system.
