

Memphis SRX8SP – 8in Amplified

SRX08SP bass systems are designed with simplicity and performance in mind. These bass systems feature a subwoofer and enclosure with a built-in amplifier. The sealed enclosure design was built to the exact parameters for the included 8" Street Reference subwoofer which maximizes the bass output and performance of the system. Don't believe a single 8" subwoofer can give you the extra lows you're looking for you? You'll just have to experience the power of the SRX08SP bass system.

- Built in amplifier.
- Sealed design
- Embroidered carpet
- Bass level control included.
- High-level and low-level inputs

Subwoofer Size (in)8"
